ANZEIGEN

FUNKTIONEN

Energiesparmodus

Die Tastatur schaltet nach 10 Minuten in den Energiesparmodus. Eine beliebige Taste drücken, um den Energiesparmodus zu beenden.

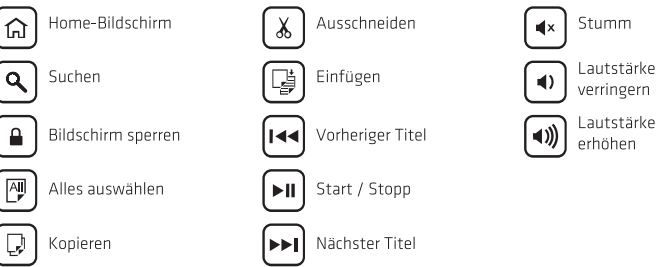

ENGLISH - SAFETY INSTRUCTIONS

Please read the user manual, especially the safety instructions carefully before using this product to ensure safe and proper use. If these instructions are not followed, you may damage this product or your device and will void your warranty. For more product information, please check the „Technical data“ in the user manual.

- This keyboard is suitable for Bluetooth enabled devices with version 3.0
- Use only charging devices that meet the required technical specifications in order to avoid malfunctions or damage to the product.
- Please make sure that the socket is always easily accessible when the keyboard is charging.
- The device may get warm during charging. This is normal.
- Do not use excessive force when connecting or removing the cable. Using excessive force may damage the cable or port.
- Do not open the product and do not attempt to repair the product yourself. Doing so puts you at risk of injury or causing damage to the device and will void your warranty.
- Do not insert any object into the port that is not designed for this purpose.
- Avoid subjecting the product to heavy shocks and protect it against impacts and falls at all times.
- Do not use the product and accessories if there is any visible damage, if it has come into contact with water or other fluids, or if it is damp.
- Keep the device out of direct sunlight and do not use in the immediate vicinity of any heat sources.
- Keep the product away from open fire: Danger of explosion!
- Keep the product away from water, other fluids and fire at all times.
- Do not use the product in extremely cold, hot, damp or dusty areas.
- Operate this product only in a dry environment between -15°C and 45°C only.
- Do not operate this product in areas and places where the use of electronic equipment is not permitted
- If you do not intend to use the product for a longer period of time, store it at a temperature between -15 and 45 degrees Celsius with a maximum relative humidity of 95% (for short periods). Fully charge the battery every three months in order to maintain battery performance.
- Obstructions, such as walls, may influence the keyboards' transmitting range. To ensure a good connection, we suggest to avoid such obstructions as good as possible and/or lower the distance during operation.
- If the product does not operate properly, turn it on again, disconnect the connection from your device and reconnect it after a moment.
- The illustrations in this manual are for descriptive purposes only and do not show a detailed description.
- Product images may vary from the actual product. The content of this user manual may be revised without prior notice.
